BURLESON SMILES DENTISTRY

You can have an amazing smile!

- Teeth Whitening

*In office treatment is one appointment with immediate results.

*At home whitening is a tray system that takes about 2-3 weeks.

- Smile makeover with porcelain laminate veneers. This is for the severely discolored, chipped or misaligned teeth, and full reconstructive surgery.
- Full mouth makeover for severely worn and damaged teeth, with crowns and/or veneers.

COSMETIC DENTISTRY

Modern cosmetic dentistry has created many new options for patients to improve their smiles and improve how they feel about themselves. New dental technology has allowed dentists to perfect patients' smiles like never before. One of the best new options is porcelain veneers, which are custom made thin porcelain restorations bonded over the front of the teeth to repair damage and/or crooked teeth to make them look better. They can overcome many cosmetic dental problems, such as discolored teeth, or correcting a crooked smile without braces. Veneers can also correct chips and imperfections to improve your smile.

Another important cosmetic option is tooth colored fillings. Replacing the ugly old, grey silver-mercury fillings can make your smile shine. These have become the modern choice of dentists and patients as they blend in with teeth and look natural.

If your smile is less than perfect, ask Dr. Hawkins about how he can make it better.

Remember, beautiful smiles open doors!

TEETH WHITENING

- This procedure is for whitening teeth without chips or misalignment.

We have two different systems for teeth whitening. The in-office Zoom treatment, and the at-home whitening system. This is a modest investment.

- In office treatment is one appointment with immediate results.

- The at home teeth whitening tray is a tray system that takes longer. Whitening solution is used in dental whitening trays applied daily for 2-3 weeks.

SMILE MAKEOVERS

Laminate Veneers

- Porcelain Laminate Veneers are for smiles that need a little straightening.
- The teeth require minimal shaping and reducing.
- This procedure takes 2-3 or more appointments. This is a moderate investment.

Porcelain Veneers
